

AIMEE DEMO VIDEO NARRATION SCRIPT WITH INSERT CUES + TIMECODES

Scene 1 – Cold Open (0:00–0:07):

"Wine and spirits reps don't need more software.
They need time.
And clarity.
And someone who knows their book better than they do."

Visual: Minimalist screen with voiceover. Can open on cluttered desk or messy CRM.

Scene 2 – Just Before First Demo Interaction (0:08–0:15):

"Aimee is a voice-powered assistant, built for sales reps in the field.
She tracks your inventory, remembers your conversations, and handles your follow-ups—
instantly."

Visual: Aimee UI loads, mic pulses. Begin first interaction.

Scene 3 – Mid-Demo Commentary (0:45–0:50):

"No dashboards. No data entry.
You just talk."

Visual: Quick clip between questions, screen showing natural voice interaction.

Scene 4 – After Email Sent (1:05–1:10):

"She lives on your phone, responds to your voice, and keeps things moving."

Visual: Confirmation of email sent, phone on car mount or handheld.

Scene 5 – End of Demo Features (1:25–1:30):

"CRM updates? Done.
Inventory questions? Answered.
Client emails? Already drafted."

Visual: Flash highlight of each of those tasks onscreen.

Scene 6 – Final Round of Responses (1:35–1:40):

"She's trained on your book.
She remembers the details.
And she works the way you do."

Visual: Zoom on user nodding or glancing at screen while driving/parked.

Scene 7 – Product Logo / Tagline (1:41–1:47):

"She's the assistant you wish you had in the passenger seat."

Visual: Logo with shimmer effect, faint waveform, blurred dashboard background.

Scene 8 – CTA (1:48–1:58):
